7	End Use Application Wise	10
8	BIS License Available	11

Background

- Steel Import Monitoring System (SIMS) is an online portal wherein importers require to submit advance information with regards to import of iron & steel items appearing in Chapter 72, 73 and 86 of ITC (HS), 2017, Schedule-I.
- The information presented in this report is derived from the entries made in the 'Steel Import Monitoring System' Portal and may not precisely reflect the actual import figures.
- To address potential inaccuracies resulting from user input errors, methods have been implemented to identify and adjust outliers for reporting purposes. This approach aims to enhance the overall accuracy and reliability of the data presented. Since SIMS involves registrations for future imports, the monthly figures mentioned in the report pertain to registrations made in the particular month.
- For reporting purposes, based on ITC codes, data has been categorized in 03 broad categories i.e., Semis, Finished Steel and Scrap.
- Figures in MnT refer to imports in Million Tonnes.

Disclaimer

- The report is not for public distribution and are solely for information. This must not be reproduced or redistributed.
- This report shall not be used as a basis for any claim, demand, or cause of action. No liability shall be accepted for any losses or damages incurred as a result of reliance on this report.
- The information in this report has been complied on the basis of the information received through SIMS registration for steel imports. The authenticity of the data received through SIMS has not been verified independently.
- While every effort is made to ensure the accuracy and completeness of information furnished in this report, Ministry of Steel takes no responsibility and assumes no liability for any error/ omission or accuracy of the information.
- Recipients of this material are advised to exercise their own judgment and conduct independent research before making any investment decisions, rather than relying solely on the information contained in this report.
- The materials and elements in this report shall not be copied or given to any person or organization without the consent of the Ministry of Steel.
- Ministry of Steel has not independently verified the data and assumptions underlying this analysis. Any changes to these data points or assumptions could significantly affect the analysis and its conclusions.
