#### Background

- Steel Import Monitoring System 2.0 (SIMS 2.0) requires importers to submit advance information in an online portal for import of iron & steel items appearing in Chapter 72 and 73 of ITC (HS), 2017, Schedule I.
- The information presented in this report is derived from entries in the 'Steel Import Monitoring System 2.0' Portal and may not precisely reflect actual import figures. To address potential inaccuracies resulting from user input errors, we have implemented methods to identify and adjust outliers for reporting purposes. This approach aims to enhance the overall accuracy and reliability of the data presented.
- Since SIMS involves registrations for future imports, the monthly figures mentioned in the report indicate registrations made in the particular month, not the imports which have happened in that month.
- For reporting purposes, based on ITC codes data has been categorized in 3 broad categories i.e., Semis, Finished Steel and Scrap.
- Figures in MnT refer to imports in Million Tonnes.

#### Disclaimer

- The report is not for public distribution and has been furnished solely for information and must not be reproduced or redistributed to others.
- No one can use the report as a base for any claim, demand or cause of action and, also no one is responsible for any loss incurred based upon.
- The market opportunities discussed or recommended in this report may not be suitable for all stakeholders and the opinion expressed is the current opinion as of the date appearing on the material only.
- The information in the document has been printed on the basis of information received through SIMS 2.0 registration for steel imports. The authenticity of the data received through SIMS 2.0 has not been verified independently.
- While every effort is made to ensure the accuracy and completeness of information contained, the Ministry of Steel takes no responsibility and assumes no liability for any error/omission or accuracy of the information.
- Recipients of this material should rely on their own judgments and conclusions from relevant sources before making any investment in market opportunities.
