(d) Steel is a de-regulated sector. In a de-regulated, open market economy, the role of the Government is that of a facilitator and in that capacity, it promotes/encourages growth of steel industry through suitable policy measures. In order to promote the domestic steel industry, the Government has framed the National Steel Policy and constituted an Inter-Ministerial Group (IMG) to monitor and coordinate the issues concerning major steel investments in the country related to infrastructure, raw material supply, environmental clearance and other resource constraints.
